

REMARKS

Favorable and prompt allowance of the pending claims in the application is respectfully requested on the basis of the following particulars.

In the amendment to the claims, new claim 11 essentially recites the subject matter of original claims 1, 3, 4 and 5, albeit in clearer terms. The subject matter of claim 4 in combination with the subject matter of claims 1 and 3 was identified as being allowable.

The remaining new claims 12-17 essentially recite the subject matter of original claims 2 and 6-10, respectively, and depend from claim 11.

It is submitted that new claims 11-17 are in condition for allowance in view of the recitation of the combination of the subject matter of original claims 1, 3, 4 and 5.

Concerning the objection to claim 1, claim 11 now recites that the pair of press-connecting pliers for coaxial pins are for multiple "coaxial wire and pin specifications." The term "specifications" is described on page 1, second full paragraph, as pertaining to coaxial wires and pins for different applications such as for sound channels, broadband networks, and cable television. It is submitted that the language in claim 11 regarding the multiple "specifications" taken in combination with the specification, makes it abundantly clear what is meant by such term.

As a result of the amendment to the claims, and further in view of the foregoing remarks, it is respectfully submitted that the application is in condition for allowance. Accordingly, it is respectfully requested that every pending claim in the present application be allowed and the application be passed to issue.

Application No.: 10/698,456
Examiner: Minh N. Trinh
Art Unit: 3729

If any issues remain that may be resolved by a telephone or facsimile communication with the applicants' attorney, the examiner is invited to contact the undersigned at the numbers shown below.
